**DETAILED ACTION**

***Election/Restrictions***

1. Claim 28 is generic to a plurality of disclosed patentably distinct species comprising as follows.

Species I, directed towards a facilitator for facilitating various management tasks concerning a fuel dispenser and its components, wherein a diagnostic test procedure manipulates event-specific variables (see p.9, lines 3-5 of the specification);

Species II, directed towards a facilitator having an agent facility configured to receive event information from the fuel dispenser, process the event information, evaluate and/or analyze the processed event information, execute a maintenance task based upon the results, execute a control task based upon the results, (see p.11, lines 21-24 and p. 12, lines 1-5,)

Species III, directed towards a facilitator having an agent facility configured to receive event information from the fuel dispenser, perform a diagnostic operation, and/or perform and/or direct a maintenance operation in relation to the fuel dispenser position, (see p.12, lines 6-11);

Species IV, directed towards a facilitator having an agent facility configured to receive event information from the fuel dispenser, the agent further having a data facility including a plurality of information elements associated with an event (see p. 12, lines 12-24);

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
